

2021/22 Pre-Budget Submission

1. Public Housing

When considering budget stimulus measures and infrastructure projects the Federal Government should, in partnership with the states, fund large scale public housing projects in all states.

Rationale: In Greater Western Sydney there is a waiting list of at least five years, which is unacceptable.

2. Rental Assistance

The maximum rate of rental assistance payable to pensioners should be increased.

Rationale: The rate of rental assistance has not been increased for at least a decade and in light of the dramatic increase to private rental prices over recent years it is completely inadequate.
